Dear Friends and Fellow Republicans

## Alvin Bragg, an American Vyshinski

For those of you who don't study Soviet aka Communist history, Andrei Vyshinski was the chief judge of Stalin's show trials during the Great Purge of the 1930's. While most of us are 100% law and order, we also understand that one of the greatest powers that government has over us is the power to put us in prison (not to mention the power to tax of course). We give the judicial system power over us, and we as a citizenry expect that those who can put us in prison act under a series of checks and balances.

Manhattan District Attorney Alvin Bragg, however does not understand such limitations. As most of you are now aware, Hollywood mogul Harvey Weinstein, who was prosecuted by DA Vyshinski (OOPS Bragg) had his Manhattan conviction overturned. Seems that Mr. Bragg and the Manhattan judge improperly allowed women to testify about crimes that Weinstein may have committed but was not charged with.

One of the most important parts of our justice system is that a person cannot be convicted of crimes they have not been charged with and those crimes may not come into evidence during the trial. (Before we go any farther, I am not taking up for Harvey Weinstein – he's a disgusting pig who deserves to spend the rest of his life in prison for raping women)

Yet Bragg and the Manhattan judicial system clearly do not understand this.

Bragg is also the DA prosecuting Trump. According to Vyshinski (OOPS again Bragg) the fact that Donald Trump paid a legal settlement to a woman to settle a sexual harassment case is a campaign finance violation. Bragg seems to not understand (nor does the presiding judge in the case) that running for President is a federal election, and thus can only be prosecuted by the feds. Neither current AG Merrick Garland (who is also a tyrant) and former Manhattan DA Cyrus Vance Jr. wanted to touch this case, and for good reason. If you criminalize a payment made in a civil legal case, then the courts will be forever corrupted. Again, even Garland and his rather corrupt DoJ get this.

After all, didn't Bill Clinton pay a legal settlement to Paula Jones that was kept under wraps? And with the same theory, shouldn't the DNC and Hillary Clinton be charged with the Steele Dossier, where they paid opposition research to come up with some phony information about Donald Trump just prior to the 2016 election?

Kim Strassel, no fan of Team Trump, seems to understand this and then some. In her latest WSJ article, she says and I quote:

**The claim is that by concealing his hush-money payment, Mr. Trump**

election FEC reports that year were made public on Oct. 27, 2016, and covered transactions only through Oct. 19. Mr. Cohen wired the money to Stormy Daniels's team on Oct. 27, and the agreement wasn't signed until the next day. Even had Mr. Trump reported all this to the FEC, the public wouldn't have known until long after the election.

These are truly Stalinist's, and they're beyond dangerous to our Representative Republic.
